

**FP 355 (08/08)**  
**INFLATION GUARD**

The limits of liability for Coverage A and B will be increased annually based on a residential building cost factor.

**IMPORTANT INFORMATION FOR THE INSURED ABOUT INFLATION GUARD  
COVERAGE:**

Inflation Guard automatically raises your insurance limits each year to adjust for rising prices in construction materials and labor. While the Inflation Guard automatically increases your insurance limits, it does not guarantee you have the proper amount of insurance. You should review your insurance limits annually to make sure you have the proper amount of insurance.

Inflation Guard Coverage is an optional enhancement to your Dwelling Policy, if you wish to have this endorsement removed from your policy, contact your producer or Illinois FAIR Plan Association Customer Service.
